Healthy and holistic education in the nature of 'love and sexuality' is crucial for your children especially at this age. It is well known that children and teens benefit the most when parents take the lead on this topic but we know that doing so can be challenging. In our on-going commitment to support you as primary educators of your children we really encourage you to come along to this seminar (a version of which has already been delivered to and warmly received by our primary school parents). In order to best accommodate parents, weekday and weekend options have been made available. We look forward to seeing you there! "

SPANISH WEEK

Spanish Week culminated in an exceptional day of cultural and culinary exploration, featuring food, song, and dance. Teachers and students enjoyed an engaging and delicious culinary experience, made possible by Profesoras Blanca and Greta, along with the support of many parents and teachers. Academically, students had the opportunity to enhance their Spanish language skills through presentations and activities focused on the cultures and cuisines of Spain, the Dominican Republic, Puerto Rico, and Cuba. This immersive experience allowed students to deepen their understanding of these diverse cultures while practicing their Spanish in a meaningful context.

FORM 1 HISTORY PROJECT

Form 1 West and East started their studies on the relationship between religion and society in medieval England. They learned that a key part of English communities in 1097 were the orders of Monks and Nuns that brought education to the masses, relief to the poor and healing to the sick. Each order was based in a monastery or convent, each containing its own specialized facilities to assist those of the religious orders in their duties. The students were asked to construct replicas of monasteries and convents to help them deepen their understanding of the important role monks and nuns played in medieval society.

MEET our Teacher

We are pleased to introduce Greta Vieira, a highly professional teacher and a distinguished member of our secondary school, serving as a foreign language teacher since 2016. She has been key in the development of our Spanish curriculum and is currently preparing our secondary school students to take the Cambridge IGCSE Spanish as a Second Language examination. Greta studied at the Universidad Pedagógica Libertador in Caracas, Venezuela, where she earned her degree in Foreign Language Teaching. She also holds a diploma in Language Teaching Methodology from the University of Poitiers in France. Additionally, she has completed numerous courses relevant to the field of education from recognized national and international institutions. For her, being a foreign language teacher is more than a profession: it is a mission that allows her to build bridges between cultures, break down linguistic barriers, and enrich the lives of those who learn. Three fundamental pillars guide her to success: passion, dedication, and continuous learning. Passion inspires and drives the students; dedication allows them to overcome challenges in the classroom; and continuous learning keeps her updated and in constant evolution.
